

1. Compact Case Summary

QSP ESS B.V. prepares a quarterly report that always follows the same structure.
The process involves:

Inputs

- BDO quarterly financials
- Prior quarter Management Accounts
- Rent roll (Hoen)
- Unit Sales Tracker (Hoen)
- Compliance Calculator
- Word report template from previous quarter

Manual workflows today

- Copying previous quarter files
- Updating Management Accounts using BDO data
- Adding a new quarterly column + updating LTM
- Fixing broken formulas due to BDO layout changes
- Rebuilding Compliance Calculator
- Updating figures across multiple pages in the Word report
- Exporting Excel sheets to PDF
- Merging all PDFs into one final document in a strict order

Goal for automation

A fully automated quarterly reporting pipeline that:

- Reads all input files
- Rebuilds Management Accounts & Compliance Calculator
- Fills the Word report template
- Generates all PDFs
- Combines everything into the final report
- Produces editable Word + Excel outputs
- Delivers a final PDF identical in structure to “Quarterly QSP - Q3 2025 - ASX”

This quarterly report itself acts as a **full end-to-end pilot**, because the structure is stable and the workflow repeats identically every quarter.

2. Request to Faran

Based on the attached files, the description from client, and the summary above:

Could you prepare a proposal outlining:

1. Your recommended architecture

(e.g. n8n/Make + Python, Excel transformation engine, docx templating, PDF bundling)

2. Your approach

- how you would automate ingestion
- how you would rebuild Management Accounts
- how to handle schema drift in BDO files
- how you recommend automating Word updates
- how to structure the final PDF assembly

3. Your time estimate

- for delivering a fully automated end-to-end pilot
- including major components and risks

4. Any additional questions

so we can gather missing details from the client.

3. Original Explanation from Client (Translated to English)

Hi Arthur,

I've tried to describe the process of preparing the quarterly reports as clearly and detailed as possible. Attached you will find all input files and the final output file "Quarterly QSP - Q3 2025 - ASX". If any additional information is needed or if you have further questions, please let me know!

Kind regards,

1. Input files

A) **“Cijfers QSP 30-09-2025 d.d. 14-10-2025”**

These are the quarterly figures we receive from BDO.

B) **“Management Accounts Q2 2025 - Draft 1”**

These are the Management Accounts of the previous quarter.

C) **“QSP huurlijst 1-10-2025”**

This is the rent roll we receive from our property manager Hoen.

D) **“Unit Sales tracker Q3_updated”**

This is the unit sales tracker we receive from our property manager Hoen.

E) **“Compliance Certificate Berekening QSP - Q2 2025_updated”**

These are the compliance calculations of the previous quarter.

F) **“Quarterly QSP - Q2 2025 - Draft”**

This is the Word document of the previous quarterly report.

2. Logic & Calculations

A) **“Management Accounts Q3 - Draft 1”**

We receive our quarterly figures from BDO in the Excel file:

Cijfers QSP 30-09-2025 d.d. 14-10-2025

We then create a copy of the file **“Management Accounts Q2 2025 - Draft 1”** and rename it **“Management Accounts Q3 - Draft 1”**.

Next, we copy the sheet from **“Cijfers QSP 30-09-2025 d.d. 14-10-2025”** and paste it into a newly created sheet called **“BDO - Q3-25”** in **Management Accounts Q3 2025 - Draft 1**.

In the sheet **“Management Cijfers - Q3 2025”**, we insert a new column named **“Q3 2025”** and rename **LTM Q2 2025** to **LTM Q3 2025**. We then ensure that the cells link correctly to **“BDO - Q3-25”**.

This usually requires significant manual checking because new BDO line items often break existing formulas.

Final check: **Total (Equity Movement) = Direct Result**

B) “Compliance Certificate Berekening QSP - Q3 2025_updated”

We create a copy of “**Compliance Certificate Berekening QSP - Q2 2025_updated**” and rename it “**Compliance Certificate Berekening QSP - Q3 2025_updated**”.

We paste the management accounts from “**Management Accounts Q3 2025 - Draft 1**” into **Q3 Management Accounts**.

We add a new column for the quarterly forecast in the sheets “**Suppl. Calc**” and “**Impact Unit Sales**”.

We ensure that the formulas in “**SFA CC**” link correctly to “**Suppl. Calc**”, “**Impact Unit Sales**”, and “**Q3 Management Accounts**”.

3. Output Process

A) “Quarterly QSP - Q3 2025 - Draft”

We create a copy of “**Quarterly QSP - Q2 2025 - Draft**” and rename it “**Quarterly QSP - Q3 2025 - Draft**”.

We then adjust the pages as follows:

- **Entire document:** replace all Q2 references with Q3 (or the correct quarter/year).
- **Page 1:** update date
- **Pages 2 & 3:** unchanged

Page 4 updates:

- Replace **GTRI**, **Gross rental income**, **Financial vacancy** with values from **Management Accounts Q3 - Draft 1**
- Replace **Unit sales proceeds** using **Unit Sales tracker Q3_updated**
- Replace **rent roll** with total rent roll from **QSP huurlijst 1-10-2025**
- Replace **maintenance expenses** using **Management Accounts Q3 - Draft 1**

Page 5: replace Actions Q3 with data from **Unit Sales tracker Q3_updated**

Page 6:

- **Strategy:** unchanged

- Replace Actions Q3 with maintenance amount from **Management Accounts Q3 - Draft 1**
- CAPEX: entered manually

Page 7: entered manually

Pages 8, 9, 10: unchanged

We then export the document to PDF as “**Quarterly QSP - Q3 2025**”.

B) Combining all components

In the final file “**Quarterly QSP - Q3 2025**”:

- After Rent Roll → insert PDF of **QSP huurlijst 1-10-2025**
- After Management Accounts → insert PDF of **Management Accounts Q3 2025 - Draft 1**
- After Sales Report → insert PDF of **Unit Sales tracker Q3_updated**
- After Compliance Certificates → insert **SFA CC, Suppl. Calc, Impact Unit Sales** from **Compliance Certificate Berekening QSP - Q3 2025_updated**

C) Final Result

After all these steps, the final delivered report is
“**Quarterly QSP - Q3 2025 - ASX**”.

4. Overview of Files Provided by the Client

- Cijfers QSP 30-09-2025 d.d. 14-10-2025.xlsx
- Management Accounts Q2 2025 - Draft 1.xlsx
- Management Accounts Q3 2025 - Draft 1.xlsx
- QSP huurlijst 1-10-2025.xlsx
- Unit Sales tracker Q3_updated.xlsx
- Quarterly QSP - Q2 2025 - Draft.docx
- Quarterly QSP - Q3 2025 - Draft.docx
- Quarterly QSP - Q3 2025 - ASX.pdf
- Compliance Certificate Berekening QSP - Q2 2025_updated
- Compliance Certificate Berekening QSP - Q3 2025_updated
