2. Management cijfers – Column Creation Logic

2.1 Quarterly + LTM columns incorrect

In “**Management cijfers – Q3 2025**”, the column roll-forward logic does not match historical structure:

- Expected:
 - Column AA: Q3 2025
 - Column AB: LTM Q3 2025 (highlighted blue)
 - Empty spacer column, then commentary columns

	A	AA	AB	AC	
1	Management Accounts QSP ESS B.V. - Q3 2025				
2	Balance sheet		30/09/2025		Commentary on bal
3	Deferred Tax Asset		8.384.004		Tax asset resulting fr
4	Real estate		101.235.467		Book value real estat
5	Financial fixed assets		36.148.941		Loan to DMRRP INV
6	Accounts receivable		58.278		
7	Service costs to be settled		(172.411)		Service costs to be s
8	Prepaid expenses		160.413		Prepaid yearly propi
9	Cash		313.170		
10	Equity		(12.755.589)		
11	AC Shareholder		1.705.813		Relates to the CIT pa
12	Bank loan		(131.689.102)

14	Accounts payable		(233.687)		
15	Current account		127.250		Intercompany curre
16	VAT payable		(4.782)		
17	Deposits		(933.720)		
18	Rent Invoiced in advance		(1.035.056)		
19	Total (Equity Movement)		1.541.543		Equals net profit of t
20					
21					
22	Profit & Loss	Q3 2025	LTM Q3 2025		Commentary
23	Gross Theoretical rental income	3.273.560	12.869.985		
24	(Financial vacancy)	(177.621)	(561.194)		
25	Gross rental income	3.095.939	12.308.791		
26		-5,43%	-4,36%		
27	Service costs charged (100% occupancy)	4.638	(71.239)		
28	(Vacancy costs)	(14.113)	138.061		

- Actual output:
 - Q3 column is highlighted blue instead of LTM
 - Column spacing/order is incorrect

	X	Y	Z	AA	AB	
1						
2				30/06/2025	2025-09-30	Commentary on balance sheet
3				(1.510.135)	(8.384.004)	Tax asset resulting from different depreciation

20						
21						
22	24	Q4 2024	Q1 2025	Q2 2025	Q3 2025	LTM Q3 2025
23	40	3.186.800	3.209.085	3.200.540	12.869.985	12.869.985
24	12	(106.874)	(143.610)	(133.088)	(561.194)	(561.194)
25	28	3.079.926	3.065.475	3.067.451	12.308.791	#####
26	4%	-3,35%	-4,48%	-4,16%	-4,36%	
27	72	(76.472)	294	302	66.822	66.822
28	35	167.420	(8.776)	(6.470)	141.838	
29	42	140.633	(131.053)	(164.115)	(93.199)	
30	25	334.590	(139.535)	(170.384)	66.822	

This breaks both visual consistency and downstream assumptions.

3. Formula Integrity & Reconciliation

3.1 Incorrect formulas (example: Accounts Receivable)

Not all formulas are correct in “Management cijfers – Q3 2025”.

Example:

- Automation uses:
`=-( 'BD0 - Q3-25' !H17+'BD0 - Q3-25' !H18+'BD0 - Q3-25' !H19)`
- Reference uses:
`= 'BD0 - Q3-25' !H19+'BD0 - Q3-25' !H21+'BD0 - Q3-25' !H22`

Even accounting for row shifts caused by missing subtitles, the automation is summing the **wrong logical rows**, suggesting positional rather than semantic mapping. Please carefully review this for the full sheet to ensure accuracy.

3.2 Mandatory validation failing

Per the handover instructions:

Final check: Total (Equity Movement) = Direct Result

This check fails in the automated output. If this reconciliation does not hold, the Management Accounts are incorrect and should not propagate further. In our current automated output this was not met.

4. Reporting Dates Not Fully Updated

In “**Management cijfers – Q3 2025**”, the bottom section (e.g. Bank account overview, ~line 106):

- Still shows “**Per 30-6-2025**”
- Should show “**Per 30-9-2025**”

Date roll-forward logic is only partially applied. This is probably consistent with the earlier issue of not taking the correct column/quarter.

Correct (in case of Q3 2025)

105		
106	Bank account overview	Per 30-9-2025
107	ABN AMRO NL46 ABNA 0541 6088 35 RENT	300.328
108	ABN AMRO NL04 ABNA 0541 6188 06 MAINT	5.889
109	ABN AMRO NL88 ABNA 0541 6205 92 EXP	6.135
110	ABN AMRO NL93 ABNA 0541 6132 27 GEN	807
111	ABN AMRO NL57 ABNA 0541 6205 68 DEP	27
112	ABN AMRO NL11 ABNA 0114 3362 02 CAPEX	-16
113	ABN AMRO NL58 ABNA 0818 9180 39 DISPOSAL	0
114	Total	313.170
115		
116		
117		
118		
119		
120		
121		

Automation behavior:

105		Per 30-6-2025
106		7.249
107		65.122
108		-16
109		27
110		13.957
111		0
112		806
113		87.146

121		

Ready Accessibility: Investigate Management Cijfers - Q3 2025

5. Compliance Certificate Issues (Upstream Dependency)

Because the **Management Accounts output is incorrect**, the following instruction is not executed correctly:

“We paste the management accounts from ‘Management Accounts Q3 2025 – Draft 1’ into Q3 Management Accounts.”

As a result, the **Compliance Certificate Q3 2025** output is also incorrect. This is an upstream dependency issue.

6. Compliance Sheets – Quarter Roll-forward Logic

The following steps are not working as required:

- Adding the new quarter column in “**Suppl. Calc**” and “**Impact Unit Sales**”
- Ensuring **SFA CC** links correctly to:
 - Suppl. Calc
 - Impact Unit Sales
 - Q3 Management Accounts

In the Q3 test:

- Actuals stop at **Q2 2025**
 - Q3 actuals are missing
 - Only forecasts for later quarters appear
-

7. Word Report – Quarter & Date Inconsistencies

7.1 Mixed quarter references

The generated Word/PDF output still contains **Q2 references** (e.g. “Actions Q2 2025”, “Portfolio highlights – Q2 2025”) while other parts correctly show Q3 2025. Quarter replacement is incomplete.

7.2 Cover page date

The cover page copies the prior report’s date (e.g. *21 juli 2025*).

Requirement: the date should be **generated dynamically at runtime** (run date).

8. PDF Assembly Order

The final merged PDF does not follow the reference structure:

- In the example, each section introduction is immediately followed by its attachment
- In the automated output, all attachments are appended in bulk at the end

The example PDF should be treated as the canonical ordering.

9. Excel → PDF Export Errors

From **page 34 through 39** of the final PDF:

- Visible **#NAME?** errors appear
- These errors do **not exist in Excel**, only in the PDF

This indicates a systemic issue in the Excel-to-PDF export (e.g. recalculation or unsupported formulas).

10. Signature Page Incomplete

The final PDF is missing a proper **signature page structure**:

- Signature itself should not be pre-filled (correct)
 - But the full layout and signing option should be present, as in the reference
-

11. QA Expectation

The issues listed above are **examples**, not exhaustive.

Given the nature of the errors, a **full end-to-end QA pass** is required across:

- Management Accounts
- Compliance Certificate
- Word document (headers, tables, body text)
- Final merged PDF (ordering, rendering, completeness)

The provided reference files should be treated as **ground truth**.
